**Hu-Friedy**<sup>®</sup>

**678-113**  
**IMPROVED ACCESS.**  
**GREATER VISIBILITY.**

With the Slim Flush Cut & Hold instrument, Hu-Friedy has combined artistry and function to produce a product that is uniquely capable of adding value to the Orthodontist's ability to deliver optimal patient care. Some of the key benefits include:

- **Improved access and enhanced visibility** made possible by a working end that has been reduced by 50% as compared to 678-111
- **Optimized patient comfort and safety and significant time savings,** delivered through a true flush cut & hold instrument that helps decrease emergency stick appointments and helps improve efficiency by eliminating the need for a cotton roll or piece of gauze to catch the cut portion
- **Additional flexibility on archwire selection** given the instrument's ability to cut up to .021" x .025"
- **Steam sterilizable**

**SLIMMER BY COMPARISON –**  
**50% THINNER END**

**678-111**

**678-200**  
**45% THINNER TIP**

The latest addition to the Weingart Utility Pliers Family offers improved visibility for the clinician and enhanced comfort for the patient and thus better clinical outcomes.

The very tip of the new 678-200 (Ultra Slim Weingart Utility Pliers) is approximately 45% thinner than the very tip of the 678-202 (Slim Weingart Utility Pliers) - see comparison.
